## Hengst MNS 03 – Face mask according to EN 14683 type II

The face mask Hengst MNS03 is characterized by its low weight and high wearing comfort. The mask offers hygienic breathing protection. The masks are made of high quality materials.

### Product description:

Three-layer face mask with ear-hooks and nose clip. Ultrasonically welded.

### Materials:

Filter fleece and covers on the inside and outside made of polypropylene - Strapping: Elastic band (latex-free) - Nose clip: Metal wire coated with polypropylene. The product is fibreglass free.

### Correct application:

1. To put on the mask, bend the nose bridge forward and place the mask on your hand so that the headgears hang down.
2. put the mask on under the chin - the nose bridge up.
3. pull the straps behind the ears.
4. use both hands to adjust the noseband to the bridge of your nose.
